Grading and Evaluation: (subject to change)

Your grade for the course will be determined by points scored for work submitted using McGraw-Hill Connects' Learn Smart, Practice, and Exams assignments.

Chapters 13 thru 25 will be scored for grading as follows:

WK	Chapter	Open	Close	Learn Smart Pts	Practice Pts	Exam Pts
1	13 -14	6/15	6/21	200	190	200
2	15-16	6/20	7/18	200	210	190
3	17-18	6/27	7/5	200	200	175
4	19-20	7/4	7/12	200	180	95
5	21-22	7/11	7/19	200	140	100
6	23-25	7/18	7/26	300	200	120
Total				1300	1120	880

Total available points for grade = 3,300 points

2800 points or higher = A

2400 – 2799 points = B

2000 – 2399 points = C

Below 2000 points = D / F

LATE WORK WILL NOT BE GRADED – NO EXCEPTIONS

Technical Issues

Because this is an online course students must be able to mostly learn on their own, and must be highly motivated. In order to achieve success in this course, regular and active participation in online assignments are extremely important. I expect your assignments and exams to be both timely and punctual.

All work submitted for grading will be completed using the McGraw Hill Connect software. The Access Code provided with your text or purchased separately is used to register and submit assignments. You should anticipate at least 5 hours per week of study and assignment completions for each chapter.

Please refer to the college catalog regarding attendance procedures and exclusion policies of the college. All technical issues of any kind should be addressed to the:

Distance Learning Office by contacting Rita or Cyrus @ 310-287-4306

ADA Reasonable Accommodation:

In support of the Americans with Disabilities Act (ADA) reasonable accommodation will be provided any student who is registered with the Disabled Student Services and who requests accommodation. Students must contact the DSP&S or call them @ 310-287-4450.

Suggestions

In addition to checking your email daily for announcements and class discussions, here are some suggestions that will allow you to focus your study habits enabling you to better exhibit your ability on exams and receive a good grade. For each chapter complete your assignments in the order of Learn Smart, Practice, then Exams.

1. Learn Smart – LS assist with the lecturing and understanding of concepts and outcomes for chapter. The material is “scored” on completion and submittal. Students should, complete and submit the Learn Smart Modules of each chapter before working on the Practice and Exam assignments.

2. Practice Assignments – Complete and submit practice assignments should be your next step. These assignments are made up of exercises contained in the texts that supports Learn Smart concepts This material, is scored, and has a due date for submission....strive to be able to say; I understand what is being read and why the exercises supports student learning outcomes as well as chapter objectives.

3. Exams – Exams are designed to test the students understanding of Learn Smart and Practices assignments in support Student Learning Outcomes (SLOs). You should take and submit your exam after submitting LS and Practice assignments. Be sure to check your “exam settings to know Due Dates, time limits, attempts, answers, solutions etc.

Work the assignments and problems to your understanding - You may understand some of the concept but you must be able to apply your understanding through the exam process. This is a do-it-yourself course, but you have a ton of resources to help you with understanding the underling concepts. Be sure that you understand as well as work the problems that illustrate the Learn Smart and Practice material in each chapter. If there is something you do not understand, prepare specific questions to post to the “Class Discussion” area. You have a little more than one week to complete and submit assignments for two (2) chapters. Be sure check the “Due Dates” to make sure you schedule your time accordingly.

Studying accounting is not like reading fiction or even like studying history, mathematics, or economics. In addition, online learning has its own particular learning techniques. Keep up with your class by submitting your work by its due date.
