**Instructional Methods:**
1. This course is taught using a variety of methods: Lecture, class discussion, small group work, electronic discussion, and group presentations that will be part of your final exam.

**Lecture and class participation:**

Reading assignments are given in class. Lecture and class discussions will follow the order in the book being used. You are requested and encouraged to participate in the lecture classes. Participation is important and can make a difference in your grade.

**Lab and participation:**

You are required to complete all lab assignments to receive a passing grade in lab. Lab projects may consist but not limited to the following projects: assigned workbook assignments, group or individual lab project (assigned aircraft/components).

**Grading System:** A grade of “C” or better is required for FAA credit (14 CFR Part 147)

Lecture grade – all lecture subject areas tests (four) total of 80%; final exam scores (15%) and attendance/class participation (5%).

Lab grade – all lab projects includes an oral (knowledge) examination. (See grade rating scale)

Grade rating scale:
1. A (90-100%) demonstrates the ability to take accurate measurements.
2. B (80-89%) demonstrates competence in taking measurements.
3. C (70-79%) demonstrates understanding of the basic principles and procedures.
4. D (60-69%) demonstrates only partial basic understanding of correct procedure.
5. F (<70%) demonstrates no understanding of correct procedure. Incomplete lab assignments.

**Policies**

**Attendance policy:** Students will sign in upon arrival on a daily class attendance sheet provided by the instructor for each class, and the instructor will hold a roll call to verify the presence of each student (at the start of the class, after lunch and at end of the class).

There is a strong correlation between attendance and grades. Poor attendance goes along with poor grades.

You are responsible for information, exams, date changes etc. Presented in class whether you are present or not.

Minimum hours required by CFR 147.21(b) (1) (2) (3) are 400 hours for General Subjects, CFR 147.21 (C) 750 hours for Airframe Subjects and CFR 147 (D) 750 hours for Powerplant Subjects, totaling 1900 hours. (WLAC: Gen – 420, AF – 866, PP – 874)

To meet the code of Federal Regulation (14 CFR Part 147) related to attendance a student may be absent without make-up time as long as the total instruction hours meet the minimum hours required by 14CFR Part 147.21 General curriculum requirements.
(b)(1)(2)(3). **Note:** All lost time for General Curriculum Subjects Appendix B to Part 147 will require make-up time.

**Attend the 1st class section or risk losing your seat.** Whether you enroll before or after the first day of the semester, failure to be present for the first day of classes may result in your seat being given to another student.

When a student absences or tardiness beyond **FIVE (5) DAYS** the instructor has the right to exclude the student from class at his/her discretion.

Time can be made up but it is at the **sole discretion** of the instructor, and the instructor **is not required** to allow you to make up (absences or tardiness) time.
