Academic Majors – Beginning with Letter “C”

CHEMISTRY

SCIENCE DIVISION

CHEMISTRY (AA)

MAJOR CODE: 1905.00

The Associate of Arts degree in Chemistry includes coursework that aligns with specific lower-division major requirements for the Chemistry major at various universities within the University of California (UC) and California State University (CSU) systems. Additional coursework in Math and Physics is required at some UC and CSU campuses.

Students are encouraged to visit the Transfer Center for complete information regarding transfer requirements for the institution of their choice. Students interested in transfer are also encouraged to consult the Counseling Office for individualized educational planning.

The Associate Degree in Chemistry is designed to provide students with a strong basic foundation for baccalaureate study in Chemistry.

Program Learning Outcomes: Upon successful completion of this program, students will be able to...

- Utilize an appropriate and effective scientific methodology to analyze physical and chemical processes in the workplace and in everyday living.
- Explain and analyze the chemical world –as chemistry is a basic science with connections to many careers
- Research and interpret scientific literature.

Required courses		45
CHEM 101	General Chemistry I	5
CHEM 102	General Chemistry II	5
CHEM 211	Organic Chemistry for Science Majors I	5
CHEM 212	Organic Chemistry for Science Majors II	5
MATH 261	Calculus I	5
MATH 262	Calculus II	5
MATH 263	Calculus III	5
PHYSICS 037	Physics for Engineers and Scientists I	5
PHYSICS 038	Physics for Engineers and Scientists II	5

Additional LACCD GE plan units 15
(21 units, minus 3 units that may be waived from area E for this "high-unit" major; and minus 3 major units that may be double-counted as GE)

TOTAL 60

CHILD DEVELOPMENT

BEHAVIORAL SCIENCE DIVISION

The Child Development program is designed for students who are interested in working with young children. The program centers on continuing experiences in a wide variety of pre-school settings and will also meet the needs of persons who are currently employed in pre-school centers, but who want to increase their professional skills. Young children are society's most valuable resource, and they must be nurtured with this judgment clearly in view. Students in the Child Development program strive to gain a deep understanding of the total development and potential of young children. The field is expanding, with excellent job opportunities existing throughout the nation.

The Child Development Program serves those entering and currently employed in the rapidly expanding field of Early Childhood Education. Students will be prepared to teach in pre-school programs, including private schools, children's centers, Head Start programs, parent cooperatives and parochial schools, as well as serving as educational aides in elementary schools. The Child Development Program at West Los Angeles College prepares those individuals that are interested in opening their own Child Care facility. The program also benefits anyone interested in understanding children, their development, and their behavior. All students must make an appointment for advisement in the Child Development Office (GC 180). Applications and a student profile record must be on file. Students will be advised to take a Math and an English assessment test.

There are residency requirements at West Los Angeles College for the awarding of Skills Certificates, Certificates of Achievement, and Associate of Arts Degree in Child Development. Any student who has completed Child Development courses at colleges within the Los Angeles Community College District is eligible for a Child Development Skills Certificate, Certificate of Achievement, or an Associate of Arts Degree in Child Development at West Los Angeles College. However, there is a 12-unit residency requirement of coursework that must be completed at West Los Angeles College. These 12 units of coursework do not have to be in the field of Child Development.

Students who have taken courses outside the Los Angeles Community College District and are applying for one of the certificates or the degree must not only meet the 12-unit residency requirement, but must also meet the following additional requirements:

Students who are applying for a Skills Award, a Certificate of Achievement, or an Associate of Arts Degree in Child Development must complete a majority of the required coursework within the Los Angeles Community College District. Courses taken outside of the Los Angeles Community College District must be evaluated by the Department Chairperson.

Program Learning Outcomes: Upon successful completion of this program, students will be able to...

DEGREES AND CERTIFICATES

AA-T Associate in Art Degree for Transfer	CA Certificate of Achievement
AS-T Associate in Science Degree for Transfer	CN Certificate of Completion (noncredit)
AA Associate of Arts degree	CY Certificate of Competency (noncredit)
AS Associate of Science degree	SC Skills Certificate (non-transcripted)

- **Understanding Young Children:** Practice and demonstrate an understanding of child development and their relationships with children and families to understand children as individuals and to plan responses to their unique needs and potentials.
- **Equity, Fairness, and Diversity:** Practice, model, and teach behaviors appropriate in a diverse society by creating a safe, secure learning environment for all children; by showing appreciation of and respect for the individual differences and unique needs of each member of the learning community; and by empowering children to give and expect equity, fairness, and dignity.
- **Assessment:** Critically investigate, interpret and analyze results of the strengths and weaknesses of multiple assessment methodologies and know how to use them effectively. Utilize a variety of methods, they systematically observe, monitor, and document children's activities and behavior, analyzing, communicating, and using the information they decide would improve their work with children, parents, and others.
- **Promoting Child Development and Learning:** Practice and demonstrate an understanding of how to promote children's cognitive, social, emotional, physical, and linguistic development by organizing and orchestrating the environment in ways that best facilitate the development and learning of young children.
- **Knowledge of Integrated Curriculum:** Apply critical thinking to design and implement academic subjects, and assessment tools so that the program design is developmentally appropriate learning experience that integrate within and across the disciplines.
- **Multiple Teaching Strategies for Meaningful Learning:** Utilize a variety of practices and resources to promote individual development, meaningful learning and social cooperation.

- Design and implement an early childhood education curriculum that is developmentally appropriate, culturally aware, and encourages parent involvement.
- Demonstrate the use of developmentally appropriate practices for young children.
- Evaluate and demonstrate the roles of Early Childhood Education professionals in preparing children for school success.
- Plan and implement curriculum domain experiences/activities for preschool and/or school-age children.
- Advocate for children's rights to develop their potential for becoming productive, well-adjusted members of society.
- Implement a plan for professional success to include obtaining a California Child Development Permit to qualify for employment in programs receiving funding from Federal, State, private (profit and non-profit), and family child care sources.
- Develop practical ideas for implementing culturally relevant and anti-bias education in core curriculum areas.

This degree complies with The Student Transfer Achievement Reform Act (Senate Bill 1440). Information on which campuses accept this degree can be found at <http://www.sb1440.org/>.

Students who complete an ADT and transfer to a similar major at a CSU are guaranteed a pathway to finish their baccalaureate degrees in 60 semester or 90 quarter units. These degrees require students to meet both of the following requirements:

1. Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
 - a. The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
 - b. A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district and meeting the requirements of an approved transfer model curriculum.
2. Obtainment of a minimum grade point average of 2.0.

EARLY CHILDHOOD EDUCATION (AS-T)

MAJOR CODE: 1305.00

The AS-T in Early Childhood Education for transfer is intended for students who are planning to transfer to a California State University (CSU) into a Bachelor of Child Development, Child and Adolescent Development, Human Development, or Educational programs; guaranteeing admission to the CSU system but not to a specific campus or major. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

Career options available to students following completion of a four-year Bachelor's degree in Early Childhood Education include Head Start Teacher, Program Director, Site Supervisor, and Educational Specialist.

Program Learning Outcomes: Upon successful completion of this program, students will be able to...

CINEMA

ARTS & PERFORMANCE DIVISION

CINEMA (SC)

MAJOR CODE: 0612.00

Students earning a skill certificate in Cinema acquire a broad, general understanding of film theory, history, and production. Students will get hands-on experience in film production and be instructed in the mechanics of writing for film. They will have the opportunity to analyze screenplays, write a script, and/or produce their own short video or film. Courses are offered in screen writing, script treatment, content development, film history, and analysis, and producing and editing of a short digital film.

Required courses	9
CINEMA 001 Introduction to Motion Picture Production	3
CINEMA 003 History of Motion Pictures	3
CINEMA 005 Introduction	3

Elective units (chosen from the following)	6
ART 639 Introduction to Digital Imaging	3
CINEMA 018 Main Currents in Motion Pictures	3
CINEMA 107 Understanding Motion Pictures	3
CINEMA 111 Cinema: Developing Content for Movies	3
CINEMA 112 Script Analysis	3
MULTIMD 100 Intro to Multimedia Computer Applications	3
MULTIMD 210 Digital Editing	3
MULTIMD 320 Web Design	3

TOTAL 15

CLIMATE CHANGE AND ENVIRONMENTAL STUDIES

SCIENCE DIVISION

The Associate in Arts degree in Climate Change and Environmental Studies is an interdisciplinary program designed to provide students with the background necessary to understand the impacts that climate change will have on their personal lives and careers, their local communities, our global society, and local to global ecosystems and environments. The degree is designed as a pathway for students wishing to transfer to Environmental Studies or other programs at four- year universities, or for students wishing to bring new expertise to their current careers. The Climate Change and Environmental Studies Associate Degree of Art requires satisfactory completion of all courses with a grade of "C" or better.

Program Learning Outcomes: Upon successful completion of this program, students will be able to...

- Explain how the climate system operates and how we can use data from the past and today to model future changes.
- Discuss the impact of human activity on the climate system.
- Evaluate and interpret qualitative and quantitative data from multiple science, social science, and humanities disciplines to make informed decisions about climate change and other environmental issues.

COMMUNICATION STUDIES

LANGUAGE ARTS DIVISION

COMMUNICATION STUDIES (AA-T)

MAJOR CODE: 1506.00

The Associate of Arts degree in Communication Studies includes coursework that aligns with lower-division requirements for transfer to various universities within the University of California (UC) and California State University (CSU) systems.

Students interested in transferring to a four-year college or university may also consider the Associate of Arts degree in Liberal Arts and Sciences (Arts and Humanities emphasis). Students are encouraged to visit the Transfer Center for complete information regarding transfer requirements for the institution of their choice. Students interested in transfer are also encouraged to consult the Counseling Office for individualized educational planning.

The Associate in Arts in Communication Studies for Transfer (AA-T) Degree prepares students for transfer into a Bachelor of Arts program in Communication Studies at a California State University (CSU). This degree aligns with the college's mission to provide a transfer pathway for student success.

This degree complies with The Student Transfer Achievement Reform Act (Senate Bill 1440). Information on which campuses accept this degree can be found at <http://www.sb1440.org/>.

Students who complete an ADT and transfer to a similar major at a CSU are guaranteed a pathway to finish their baccalaureate degrees in 60 semester or 90 quarter units. These degrees require students to meet both of the following requirements:

1. Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
 - a. The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
 - b. A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district and meeting the requirements of an approved transfer model curriculum.
2. Obtainment of a minimum grade point average of 2.0.

Program Learning Outcomes: Upon successful completion of this program, students will be able to...

- Research and collect data on the demographics, needs and expectations of the audience.
- Analyze the audience and adjust to its needs when delivering a speech.
- Plan speeches that have clear purposes: to inform, to debate, to persuade or to resolve conflict.
- Employ effective interpersonal communication skills and strategies that foster improved relationships with other individuals in dyads or small groups.

- Apply critical thinking to formulating speeches and in assisting audiences in understanding, investigating or questioning the contents and purpose of a speech.
- Deliver speeches that incorporate a combination of verbal and non-verbal, written and/or visual and auditory expressions and media.
- Employ voice projection, enunciation, pacing, eye contact and other effective delivery strategies.
- Employ small group communication strategies.
- Employ relaxation techniques to prepare for delivery.
- Script a speech.

Required course **3**
COMM 101 Oral Communication **3**

Elective units, list A (chosen from the following) **6**

COMPUTER NETWORK AND SECURITY MANAGEMENT

COMPUTER SCIENCE & APPLICATION DIVISION

The Computer Science Information Technology programs provide instruction to students interested in careers in computing, systems administration, computer network & security, business application, web design & development and database administration.

A Computer Science Information Technology option, Computer Network & Security Management option and Web Support & Database Administration option are offered.

The degree and certificate program in Computer network and Security Management combines CompTIA, Microsoft system administration, CISCO networking, VMware virtualization technology and other in-demand IT certification training to help

students develop skills to manage and maintain industry leading computer operating and network system with security emphasis.

Microsoft and Cisco network training at WLAC prepare students to pass Microsoft and Cisco certification exams. These industry-demand certifications are important to those who wish to pursue a career working with Microsoft and CISCO network. This program helps students build core foundation for Microsoft domain network and learn Cisco router configuration techniques.

These programs are also intended to help students develop skills to administer industry standards network and information system with security emphasis. The courses examine and illustrate network security with industry leading network operating system.

Program Learning Outcomes: Upon successful completion of this program, students will be able to...

- Install, configure and manage industry standard computer operating system with security emphasis-Install, configure, manage and troubleshoot industry leading network systems
- Install and configure routers and switches internetwork operating systems
- Administer server network operating systems and infrastructure
- Understand a full range of security concepts & techniques and apply them to the network, application and information system
- Learn cloud technology and manage virtualized environments.

COMPUTER SCIENCE INFORMATION TECHNOLOGY

COMPUTER SCIENCE & APPLICATION DIVISION

Computer programmers write, test, and maintain the detailed instructions, called programs that computers must follow to perform their functions. Programmers also conceive, design, and test logical structures for solving problems by computer. Many technical innovations in programming—advanced computing technologies and sophisticated new languages and programming tools—have redefined the role of a programmer and elevated much of the programming work done today.

This major provides the student with the basic skills required of core computer science. Courses include programming in low-level and essential languages, data structures, database and web programming and network operating system fundamentals.

Students finishing this major are well equipped to work in the field of computer science as well as transfer to a four-year degree program in the area of Computer Science, Mathematics or Engineering.

Program Learning Outcomes: Upon successful completion of this program, students will be able to...

- Understand the system, assess the need, develop algorithm and create a program using computing technology.
- Design, administer and maintain a database system for an organization.
- Use current and emerging computing technology to enhance business and individual productivities.
- Install, configure and administer computer network system.
- Install, configure and manage computer operating system with security settings.
- Design and develop web page, web site and web application
- Design, develop and administer an e-commerce system.
- Pursue continuing educational opportunities within the emerging field of computer technology.

COMPUTER SCIENCE INFORMATION TECHNOLOGY (AS)

MAJOR CODE: 0702.00

Computer science program is designed to give students a strong background in the fundamentals of Computer Science, software design and development. Students will be able to document Software System requirements and use different programming languages to design, implement, test and deploy Software Solutions to solve technical/business problems. The program also covers design, administer, and maintaining databases.

Required courses	22
CO SCI 902 Introduction to Computer Science	3
CO SCI 917 Beginning Micro-Assembly Language	3
CO SCI 934 Operating System	3
OR	
CO SCI 935 Introduction to Linux+	3
CO SCI 936 Introduction to Data Structures	3
CO SCI 939 Programming in C	3
CO SCI 980 Intro to Computer Information Security I	3
CO SCI 990 Object-Oriented Programming in Java	4
Electives units (chosen from the following)	8
CO SCI 185 Directed Study – Computer Science-Information Technology	1
CO SCI 285 Directed Study – Computer Science-Information Technology	2
CO SCI 900 Introduction to Robotics	3
CO SCI 901 Introduction to Computers and Their Use	3
CO SCI 902 Introduction to Computer Science	3
CO SCI 933 Database Design and Programming	3
CO SCI 934 Operating Systems	3
CO SCI 935 Introduction to Linux +	3
CO SCI 938 Web Application Programming Using Visual Basic VB.NET	3
CO SCI 942 Discrete Structure	3
CO SCI 953 Database Management Using Oracle	3
CO SCI 955 Programming for Mobile Application	3
CO SCI 957 Introduction to Web Development HTML5 & CSS	3
CO SCI 958 Web Page Development	4
CO SCI 959 Advanced Programming for Mobile Devices	3
CO SCI 962 Web Programming Using JavaScript	4
CO SCI 963 Advanced Web Application Programming	3
CO SCI 967 Advanced Linux operating System and Applications	3
CO SCI 980 Introduction to Computer and Information Security I	3
CO SCI 988 Installing, Configuring, and Administering Microsoft SQL	3
Additional LACCD GE plan units	21
Degree-applicable elective units	9
TOTAL	60

COMPUTER RETAIL SALES AND SUPPORT (CA)

MAJOR CODE: 0708.00

The Computer Retail Sales and Support Certificate of Achievement is the first stage of the statewide IT Technician pathway and prepares students to develop their fundamental IT Technician Skills. While completing coursework in customer service, communication, Microsoft Office, and information systems coursework, along with earning the CompTIA A+ industry certification, students gain practical experience as they learn how to succeed in an IT retail environment. Upon completion of this program, students would be qualified for entry level IT positions such as Retail Salespersons, Customer Service Representatives, Retail Sales Workers, and Sales Representatives.

Program Learning Outcomes: Upon successful completion of this program, students will be able to...

- Use current and emerging computing technology to enhance business and individual productivities.
- Create documents, presentations, spreadsheet and database for course work, professional purpose and personal use.
- Install and set up modern operating system, manage system resources and configure security settings.
- Install and set up modern operating system, manage system resources and configure security settings.

Required courses	22

COMPUTER WEB SUPPORT AND DATABASE ADMINISTRATION

COMPUTER SCIENCE & APPLICATION DIVISION

COMPUTER WEB SUPPORT AND DATABASE ADMINISTRATION (AA)

MAJOR CODE: 0709.00

This program is intended to help students develop skills in designing, building, programming, populating with contents, branding, and marketing, supporting and managing websites. This program also provides students with the knowledge and skills to administer website security and to manage client-server database.

This program is also intended for students interested in business application, database design & programming and e-commerce. Students will be instructed in designing and maintaining databases that are used to serve dynamic data to websites.

Program Learning Outcomes: Upon successful completion of this program, students will be able to...

- Understand how the Internet uses HTML, Client side and Server side scripting to build modern web sites.
- Design and maintain websites using HTML, CSS, and JavaScript.
- Design and develop web applications using ASP.Net, JavaScript and HTML5 technologies.
- Design and maintain databases that are used to server dynamic data to websites.
- Design and develop dynamic database applications using enterprise databases such as Oracle, Microsoft SQL Server and MySQL.
- Understand the core concepts in building an E-Commerce site that is published on the Internet.

COMPUTER NETWORK MANAGEMENT (CA)

MAJOR CODE: 0708.10

Microsoft and Cisco network training at WLAC prepare students to pass Microsoft and Cisco certification exams. These industry-demand certifications are important to those who wish to pursue a career working with Microsoft and CISCO network. This program helps students build core foundation for Microsoft domain network and learn Cisco router configuration techniques.

Required courses	9
CO SCI 972 Intro to Cisco Network Fundamentals	3
CO SCI 982 Intro to Microsoft Server OS	3
CO SCI 974 Intro to Cisco Routers	3
Elective units (chosen from the following)	8
CO SCI 185 Directed Study – Computer Science- Information Technology	1

MOBILE APPLICATION DEVELOPMENT (CA)

MAJOR CODE: 0707.10

The Certificate of Achievement in Mobile Application Development provides students with a high quality education that prepares them for professional career in mobile Application development. The curriculum prepares students to develop mobile application for popular platforms such as Android and Apple IOS. Students will be able to pursue careers in the following areas such as software engineer, web and mobile application developer.

This program of study is designed to prepare students to work successfully as a member of a Mobile Application Development team. Upon completion of the required courses, the students can apply for Certificate of Achievement in Mobile Application Development.

Required courses	15
CO SCI 939 Programming in C	3
CO SCI 955 Programming for Mobile App	3
CO SCI 957 Intro to Web Develop HTML & CSS	3
CO SCI 959 Advanced Programming for Android	3
CO SCI 990 Object Oriented Programming Java	3

NETWORK & INFORMATION SYSTEM SECURITY (CA)

MAJOR CODE: 0708.10

This program is intended to help students develop skills to administer industry standards network and information system with security emphasis. The courses examine and illustrate network security with industry leading network operating system. This program is also designed to help students prepare to complete CompTIA security+ certification exam.

Required courses	9
CO SCI 965 Introduction to Computer Networks	3
CO SCI 980 Intro to Computer & Info Security I	3

The Dental Assistant Program is designed to prepare students to work successfully as a member of the dental team.

Dental Assistants can work in a variety of settings such as dental offices of general dentists and dental specialists, dental schools, private and government hospitals and clinics, state and local public health departments.

Upon completion of the program the dental assistant student will be prepared to:

- Provide comprehensive dental assisting care to individuals from diverse socioeconomic, educational, and cultural backgrounds according to state regulations in a safe and ethical manner.
- Assist in the clinical setting with dental treatment procedures while assuming responsibility for prevention of disease transmission in the work environment. Responsibilities include: using dental instruments and materials, taking and processing dental radiographs, taking impressions and performing many other dental procedures within the scope of dental assisting practice in the state of California.
- Perform front office duties including communicating with patients, other health professionals, dental suppliers, business contacts and insurance companies, scheduling appointments, managing insurance and/or financial aspects of the dental practice and using dental management software systems.
