MARKETING
(MARKET)

MARKET 001 Principles of Selling (3) CSU
This course emphasizes the principles used in persuasive communication. Consumer buying behavior, presentations, and closing sales are covered. The course is designed to help students currently involved in sales, as well as those seeking to improve their communication skills. Sales presentations, video tapes and case studies are used.

MARKET 011 Fundamentals of Advertising (3) CSU
This course introduces the student to the role of advertising in our economy. It gives a comprehensive overview of the planning and managing of advertising. The course also covers how the major forms of media, such as television, radio, newspapers, magazines, and the internet are integrated into the advertising campaign.

MARKET 021 Principles of Marketing (3) CSU
This course introduces students to various activities in the field of marketing. It provides a broad understanding of the principals involved in the distribution of commodities from the producer to the user or consumer. It covers the consumer market, consumerism, packaging and brands, pricing, wholesaling, retailing, sales promotion, personal selling, and international marketing. Presentations, case studies and video tapes are used.

MARKET 023 Introduction to Social Media Marketing (3)
This course equips students with the practical skills required to develop marketing strategies that leverage opportunities inherent in social media and consumer-to-consumer social interactions to achieve business and marketing goals. The course emphasizes the importance of understanding consumers’ social interactions. Also covered: current social media marketing channels, social marketing strategies, effective social media tracking, relevant aspects of digital marketing technologies and emerging topics in e-commerce, mobile marketing, and social media startups.

MATHEMATICS
(MATH)

NOTE: To enroll in a mathematics course, the student must satisfy one of the following conditions:
- The prerequisite must have been completed, OR
- Placement through the Multiple Measures process

MATH 105 Arithmetic (3) NDA
This course is designed to give students an understanding of and a competency in the basic operations of elementary arithmetic. To attain this mastery, students must have a genuine desire to remove arithmetic deficiencies. Topics include operations with whole numbers, common and decimal fractions, percentages, the study of the metric system and simplified calculations.

MATH 107 How to do Word Problems
Prerequisite: MATH 110 or 112 with a grade of “C” or better, or placement through the multiple measures process.
Students will learn reading and problem-solving strategies needed for success with word problems commonly encountered in Algebra courses.

MATH 110 Introduction to Algebraic Concepts (5)
Prerequisite: MATH 105 with a grade of “C” or better, or placement through the multiple measures process.
Discusses abstract ideas necessary for understanding algebra and reviews selected topics in arithmetic relevant to algebra. Introduces fundamental notions of algebra including signed numbers, variables, simple equations, proportional reasoning, applications, and modeling. This course also includes group work instruction in mathematics study skills.

MATH 112 Pre-Algebra (3) NDA
Prerequisite: MATH 105 with a grade of “C” or better, or placement through the multiple measures process.
This course bridges the gap between arithmetic and algebra. It reviews arithmetic and introduces concepts of algebra including signed numbers, variables, exponents, mathematical sentences and linear equations.

MATH 115 Elementary Algebra (5)
Prerequisite: MATH 110 or 112 with a grade of “C” or better, or placement through the multiple measures process.
This is a first course in algebra. It covers the fundamental operations on natural numbers and carries on a logical development through all the real numbers. The course includes the
solution of linear and quadratic equations and their graphs, factoring and statement problems.

**MATH 117 Basic Elementary Algebra (5)**
Prerequisite: MATH 110 or 112 with a grade of “C” or better, or placement through the multiple measures process.
This course is designed for students who are beginning the study of algebra. It parallels the first half of the first year algebra course in high school. Additional topics have been added to the traditional material. Note: MATH 117 and 118 together are equivalent to MATH 115.

**MATH 118 Basic Elementary Algebra II (5)**
Prerequisite: MATH 117 with a grade of “C” or better.
This course parallels the second half of first-year high school algebra course, including additional topics such as rational expressions, radicals and roots, graphs of linear and quadratic equations, and linear systems. Note: MATH 117 and 118 together are equivalent to MATH 115.

**MATH 122 Intermediate Algebra for Statistics (5)**
Prerequisites: MATH 115, 118, or placement through the multiple measures process.
The course reviews and extends elementary algebra concepts and techniques and also covers intermediate algebra topics necessary to be successful in Math 227 Statistics. Topics include absolute value equations and inequalities, compound inequalities, relations and functions, exponential and logarithmic functions, sequences, series, Binomial Theorem, permutation & combination, sets and probability. This course serves as a prerequisite solely for Math 227 and Math 215. Students will not get math competency credit as stated in E-79 for taking this course. Students who wish to proceed to another course would need to assess into it or go back and take Math 125.

**MATH 123A Elementary and Intermediate Algebra I (4)**
Prerequisite: MATH 110 or 112 with a grade of “C” or better, or placement through the multiple measures process.
First of three modules for MATH 123 covering elementary algebra topics such as properties and operations with real numbers, addition, subtraction, multiplication of polynomials, solution of linear equations and inequalities. Solution of word problems involving linear equations and inequalities.

**MATH 123B Elementary and Intermediate Algebra I (4)**
Prerequisite: MATH 123A with a grade of “C” or better, or placement through the multiple measures process.
Second of three modules for Math 123 covering elementary algebra topics such as addition, subtraction, multiplication of polynomials, solution of second degree equations and radical expressions. Solution of word problems involving second degree equations and radical expressions.

**MATH 123C Elementary and Intermediate Algebra I (4)**
Prerequisite: MATH 123B with a grade of “C” or better, or placement through the multiple measures process.
Third of three modules for MATH 123 covering intermediate algebra topics such as functions and their operations, conic sections, series and sequences. Applications of these topics to business, science and engineering are included.

**MATH 125 Intermediate Algebra (5)**
Prerequisite: MATH 115 or 118 with a grade of “C” or better, or placement through the multiple measures process.
Manipulative skills in algebra are developed and strengthened in the course. The topics include rational exponents, the complete number system of algebra, algebraic and graphical solutions to linear and quadratic equations, logarithmic and exponential functions, elementary theory of equations and inequalities and conics. A wide variety of statement problems are included in the course.

**MATH 127 Basic Intermediate Algebra I (5)**
Prerequisite: MATH 115 or 118 with a grade of “C” or better, or placement through the multiple measures process.
This course covers the first half of MATH 125 with additional topics. Manipulative skills in algebra are developed and strengthened in the course. The topics include linear equations and inequalities, graphs and functions, systems of equations and inequalities, and polynomials and factoring. A wide variety of statement problems are included in the course. Note: MATH 127 and 128 together are equivalent to MATH 125.

**MATH 128 Basic Intermediate Algebra II (5)**
Prerequisite: MATH 127 with a grade of “C” or better, or placement through the multiple measures process.
This course covers the second half of MATH 125 with additional topics. Manipulative skills in algebra are developed and strengthened in the course. The topics include linear equations and inequalities, graphs and functions, systems of equations and inequalities, and polynomials and factoring. A wide variety of statement problems are included in the course. Note: MATH 127 and 128 together are equivalent to MATH 125.

**MATH 215 Principles of Mathematics I (3) UC/CSU**
Prerequisite: MATH 123C, 125, or 128 with a grade of “C” or better, or placement through the multiple measures process.
This course helps students understand topics in mathematics, including sets, number bases, number systems, logic and probability. It is recommended for prospective elementary school teachers.

**MATH 227 Statistics (4) UC/CSU**
Prerequisite: MATH 122, 123C, or 125 with a grade of “C” or better, or placement through the multiple measures process.
This course discusses averages, variability, graphical techniques, probability, hypothesis testing, sampling, estimation, correlation, prediction, and linear regression. Topics include collection and analysis of data and how inferences about a population are made from that sample.

**MATH 230 MATHEMATICS FOR LIBERAL ARTS STUDENTS (3)**
Prerequisite: MATH122, 125 with a grade of “C” or Placement through the multiple measures process.
Recommended: Academic Preparation 16CE Algebra and 18CE Preparatory Math noncredit.
An introduction to the spirit and style of mathematics and its pursuit as a human endeavor. Topics include logical reasoning and set theory, algebraic and geometric systems, probability and statistics, mathematical modeling, and two or more of the following:
numerical systems, financial math, graph theory, election theory, fair-division algorithms, number theory, sequences and series.

MATH 235 Finite Mathematics (5) UC/CSU
Prerequisite: MATH 125, or 128 with a grade of "C" or better, or placement through the multiple measures process.
This course covers finite mathematics consisting of sets, graphing, linear programming, vectors, matrices, linear systems, combinations, probability, statistics, game theory and Markov chains, with emphasis on applications in business and social sciences.
UC Transfer Credit Limit: A maximum of two courses from MATH 235 and 236; MATH 261 and 262.

MATH 236 Calculus for Business and Social Sciences (5) UC/CSU
Prerequisites: MATH 123C, 125, or 128 with a grade of "C" or better, or placement through the multiple measures process.
This course consists of elementary differential and integral calculus; exponential and logarithmic functions, and their applications to business and social sciences.
UC Transfer Credit Limit: A maximum of two courses from MATH 235 and 236; MATH 261 and 262.

MATH 241 Trigonometry with Vectors (4) CSU
Prerequisites: MATH 123C, 125, or 128 with a grade of "C" or better, or placement through the multiple measures process.
This course of analytical trigonometry includes solutions of triangle problems, radian measure, graphs of trigonometric functions, trigonometric equations, identities, polar coordinates and inverse trigonometric functions and complex numbers.

MATH 245 College Algebra (3) UC/CSU
Prerequisite: MATH 123C, 125, or 128 with a grade of "C" or better.
The course discusses relations, functions and their graphs, matrices and determinants, theory of equations, permutations, combination, probability, sequences and series, and conic sections.
UC Transfer Credit Limit: A maximum of one course from MATH 245 or MATH 260.

MATH 260 Pre-Calculus (5) UC/CSU
Prerequisite: MATH 241 with a grade of "C" or better, or placement through the multiple measures process.
This course in pre-calculus combines the traditional courses of college algebra and analytic geometry, and covers such topics as inequalities, functions, matrices and determinants, properties of the straight line, conic, algebraic and transcendental functions, and parametric equations.
UC Transfer Credit Limit: A maximum of one course from MATH 245 or MATH 260.

MATH 261 Calculus I (5) UC/CSU
Prerequisite: MATH 260 with a grade of "C" or better, or placement through the multiple measures process.
Students learn basic principles and applications of calculus. Topics include: continuity and limits; differentiation and integration of algebraic and trigonometric functions; fundamental theorem of the calculus; applications of the derivative to curve sketching, rectilinear motion, maximum/minimum problems, and related rates; applications of the integral to problems of area, volume, arc length, and work.
UC Transfer Credit Limit: A maximum of two courses from MATH 235 and 236; MATH 261 and 262.

MATH 262 Calculus II (5) UC/CSU
Prerequisite: MATH 261 with a grade of "C" or better.
The second course of calculus deals with the differentiation and integration of transcendental functions, standard techniques of integration, curves in polar coordinates, and sequences and series.
UC Transfer Credit Limit: A maximum of two courses from MATH 235 and 236; MATH 261 and 262.

MATH 263 Calculus III (5) UC/CSU
Prerequisite: MATH 262 with a grade of "C" or better.
The third course of calculus deals with such topics as multivariable calculus, partial differentiation, two- and three-dimensional vectors, Stokes and divergence theorems, and differential equations.

MATH 270 Linear Algebra (3) UC/CSU
Prerequisite: MATH 262 with a grade of "C" or better.
This course covers vector spaces, linear transformations and matrices, matrix algebra. Determinants and solutions of systems of equations are made. Note: Offered Fall semesters only.

MATH 275 Ordinary Differential Equations (3) UC/CSU
Prerequisite: MATH 263, which may be taken concurrently.
This course covers first-order differential equations and linear differential equations. Special methods for solution of these equations are developed and applied. Transforms are developed and used for the solution of differential equations and systems of equations. Existence theorems are stated and proofs are outlined. Series solutions and operator methods are included.

MICROBIOLOGY
(MICRO)

MICRO 020 General Microbiology (4) UC/CSU
Prerequisites: BIOLOGY 3A, 3B.
Recommended: Successful completion of ENGLISH 28.
Study of microorganisms, including their structure, metabolism, methods of multiplying, and classification. The techniques used to control microorganisms and the human body's defenses against microbial attack are emphasized. The laboratory covers the microscopic examination of microorganisms, aseptic techniques, the cultivation of bacteria, the effects of antimicrobial agents, and the influence of the environment on bacterial growth.

MULTIMEDIA
(MULTIMD)

MULTIMD 100 Introduction to Multimedia Computer Applications (3) CSU
An overview of the interactive multimedia industry, the profession and career options, the market, and the production process including concept development, interactive design, asset manipulation, programming and delivery. This introduction forms the basis for study of digital and nonlinear technologies and applications.
MULTIMD 210 Digital Editing (3) CSU
This course introduces the student to computer applications for the digital editing of video and sound. Emphasis is placed on non-linear postproduction tools.

MULTIMD 320 Web Design (3) CSU
A fundamental course in the application of the principles of design to build websites. Students will use a web interface design they have created to build and publish a third or fourth generation website.

MULTIMD 350 Web Design II (3) CSU
Prerequisite: MULTIMD 320
Advanced development of aesthetic and conceptual skills related to design for Web Sites. Techniques are demonstrated to further student experience with design, Dreamweaver, HTML5 and CSS (Cascading Style Sheets). Focus is also placed on usability, accessibility and web standards.

MULTIMD 400 Introduction to Experimental Animation (3) CSU
Introduces the student to the basic principles of experimental animation. Emphasis is placed on the techniques, tools, and resources required to create a wide range of animated projects, including hand-drawn, clay animation and cut-out. Students apply concepts of timing, weight, personality, balance and style.

MULTIMD 803 Introduction to Webcasting (2) CSU
Teaches the principles and practice of producing Webcasts--emphasizing news, entertainment and information. Students will learn fieldwork, interviewing, writing, shooting, editing and postproduction techniques for Webcasts. This course provides instruction on the use of video and audio recording equipment, live streaming techniques, recording and editing software, as well as posting and publicizing Webcasts. Audience, lighting techniques, composition, Students’ work may also be posted to student-run campus media online.

MULTIMD 805 Motion Graphics, and Compositing for Digital Video, Animation, Gaming, and New Media (3) UC/CSU
Intermediate level course dealing with motion graphics and compositing for film and television using digital imaging and animation software, with an emphasis on After Effects or similar state-of-the-art software, including layers, masks, filters, animation techniques and output to video, via demonstrations, pracitcums, and exercises.

MULTIMD 807 Interactive Media Design (3) UC/CSU
This course introduces students to basic concepts of interactive design for digital media with a journalistic emphasis. Students will design interactive multimedia packages, graphics, animation, mobile applications, digital e-book reader interactives, widgets, and more. An introduction to basic design principles, concepts of engagement and interactivity, and presentation of journalistic content on a variety of platforms will be discussed. An emphasis will be placed on accuracy, as well as clear and dynamic presentation.
MUSIC 180 Applied Music Laboratory (1.5) CSU
This course consists of individualized study of the appropriate techniques and repertoire for the specific instrument or voice being studied. The emphasis is on the progressive development of skills needed for performance. Achievement is evaluated through skills demonstration.

MUSIC 180-1 Applied Music Laboratory I (1.5) UC/CSU
This course consists of individualized study of the appropriate techniques and repertoire for the specific instrument or voice being studied. The emphasis is on the progressive development of skills needed for performance. Achievement is evaluated through skills demonstration. Concurrent enrollment in MUSIC 181 is required. Placement is by audition only.

MUSIC 180-2 Applied Music Laboratory II (1.5) UC/CSU
This course consists of individualized study of the appropriate techniques and repertoire for the specific instrument or voice being studied. The emphasis is on the progressive development of skills needed for performance. Achievement is evaluated through skills demonstration.

MUSIC 180-3 Applied Music Laboratory III (1.5) UC/CSU
This course consists of individualized study of the appropriate techniques and repertoire for the specific instrument or voice being studied. The emphasis is on the progressive development of skills needed for performance. Required enrollment in co-requisite course MUSIC 183. Placement is by audition. Achievement is evaluated through skills demonstration.

MUSIC 180-4 Applied Music Laboratory IV (1.5) UC/CSU
This course consists of individualized study of the appropriate techniques and repertoire for the specific instrument or voice being studied. The emphasis is on the progressive development of skills needed for performance. Required enrollment in co-requisite course MUSIC 184. Placement is by audition. Achievement is evaluated through skills demonstration.

MUSIC 181 Applied Music I (0.5) CSU
This course offers individual instruction of one-half hour per week in voice, piano, guitar, or band/orchestral instruments, with an assigned instructor on the Applied Music staff. Emphasis is placed on technical development, interpretation, and musicianship at the lower-intermediate level. Performance for a faculty jury is required at the end of the semester. All students must successfully audition to enroll.

MUSIC 185 Directed Study-Music I (1) CSU
This course allows students to pursue directed study in Music on a contract basis under the direction of a supervising instructor.

MUSIC 200 Introduction to Music Theory (4) UC/CSU
This course explores the elements of music and discovers how musicians use the elements to create compositions. Topics include musical notation, basic rhythms, scales, keys, sight singing, ear training, and an introduction to the keyboard.

MUSIC 201 Harmony I (3) UC/CSU
Prerequisite: MUSIC 200. Recommended: concurrent enrollment in MUSIC 211.

Fundamental harmonic principles of music including chord structure in diatonic harmony, inversions, harmonic progression, cadences, harmonicization of a given part and non-harmonic tones. Harmonic skill is developed through written exercises, analysis of musical examples. Students will be required to spend additional time in the Theory Lab with computer assisted instructional materials, and have at least minimum pianistic ability.

MUSIC 202 Harmony II (3) UC/CSU
Prerequisite: MUSIC 201. Corequisite: MUSIC 212.
While further developing the material presented in Harmony I, Harmony II expands the musical vocabulary by presenting seventh chords and an introduction to chromaticism and modulation. Students in this course will be required to spend additional time in the Learning Resource Center with audio-visual and computer-assisted instructional materials.

MUSIC 203 Harmony III (3) UC/CSU
Prerequisite: MUSIC 202. Corequisite: MUSIC 213.
This course extends principles developed in MUSIC 202, including augmented sixth chords, the Neapolitan sixth, altered dominants, diminished seventh chords, chromatic third-relation harmony, modulation to foreign keys and extended chords such as ninths, elevenths and thirteenth. Students in this course will be required to spend additional time in the Learning Resource Center with audio-visual and computer-assisted instructional materials.

MUSIC 211 Musicianship I (1) UC/CSU
Required of all Music majors. Prerequisite: MUSIC 200 or equivalent. Corequisite: MUSIC 201. Correlated with Harmony 1, this course consists of a study of sightreading, one-part melodic dictation, simple harmonic dictation, elementary theory, including scale structure, keys, intervals, musical terminology and notation, and the basic principles of musicianship.

MUSIC 212 Musicianship II (1) UC/CSU
Prerequisite: MUSIC 211. Corequisite: MUSIC 202.
This course consists of sight reading, ear training and keyboard application of the subject matter covered in Music 202.

MUSIC 213 Musicianship III (1) UC/CSU
Prerequisite: MUSIC 212. Corequisite: MUSIC 203.
This course consists of sight reading, ear training and keyboard application of the subject matter covered in MUSIC 203.

MUSIC 214 Musicianship IV (1) UC/CSU
This course is an advanced intermediate course that applies and develops sight singing; rhythmic, melodic and harmonic materials, dictation and simple keyboard harmony. Review of music theory fundamentals.

MUSIC 265 Recording Arts Workshop (3) CSU
Prerequisite: MUSIC 165.
The application of the theory and practice of acoustics, audio, and recording learned in The Introduction to Recording of recording styles; recording studio equipment; and multi-track recording procedures.
MUSIC 265-1 Recording Arts Workshop I (3) CSU
This is the first of a three-course intermediate to advanced series in recording arts for students who have previously completed MUSIC 165. Through lecture and hands-on experience students will study acoustic principles, microphones, multi-track recording, overdubbing and mixing, using hardware equipment and digital audio workstation (DAW) computer applications. Students will be responsible for equipment set up and take down as well as uploading projects to the internet for personal and or academic use.

MUSIC 265-2 Recording Arts Workshop II (3) CSU
This is the second of a three-course intermediate to advanced series in recording arts for students who have previously completed MUSIC 265-1. Through lecture and hands-on experience students will study acoustic principles, advanced multi-track recording techniques, advanced microphone techniques, signal processing, track groups, and techniques for creating a balanced and effective mix. Students will be responsible for equipment set up and take down as well as uploading projects to the internet for personal and or academic use.

MUSIC 265-3 Recording Arts Workshop III (3) CSU
This is the third of a three-course intermediate to advanced series in recording arts for students who have previously completed MUSIC 265-2. Through lecture and hands-on experience students will study acoustic principles, advanced multi-track recording, advanced audio editing and track comping, advanced signal processing, and mastering techniques. Students will be responsible for equipment set up and take down as well as uploading projects to the internet for personal, academic, and or commercial use.

MUSIC 321 Elementary Piano I (2) UC/CSU
This course deals with the fundamental harmonic principles of music including chord structure, diatonic harmony, inversions, harmonic progression, harmonic structure of the phrase, harmonization of a given part, and non-harmonic tones. Harmonic skill is developed through written exercises, analyses of classical examples and keyboard exercises. Students will be required to spend additional time in the Learning Resource Center with audio visual and computer-assisted instructional materials, have some pianistic ability, and/or concurrent enrollment in an elementary piano course.

MUSIC 322 Elementary Piano II (2) UC/CSU
Prerequisite: MUSIC 321 or equivalent.
Elementary Piano II is a continuation of Elementary Piano I (MUSIC 321) with emphasis on basic piano technique including major scales and arpeggios up to five sharps and flats in two octaves; along with the basic principles of sight-reading in simple and compound meters; melody harmonization using I, IV, and V7 chords; transpositions and stylistic interpretation of early keyboard literature. Note: Students should have access to a piano, as daily practice is required.

MUSIC 323 Elementary Piano III (2) UC/CSU
Prerequisite: MUSIC 322 or equivalent.
Continuation of MUSIC 322 topics including repertoire on the level of Beethoven Sonata in G; Bach Minuet in G. Note: Students should have access to a piano, as daily practice is required.

MUSIC 324 Elementary Piano IV (2) UC/CSU
Prerequisite: MUSIC 323 or equivalent.
Elementary Piano IV is a continuation of Elementary Piano III. The emphasis of this course is on exploring minor scale forms including the natural, harmonic and melodic forms; sight-reading minor melodies based on minor scale forms; constructing augmented and diminished triads; along with the basic principles of harmonization, sight reading, transposition, improvisation, and accompaniment using Romantic and folk keyboard literature.

MUSIC 341 Intermediate Piano (2) UC/CSU
Prerequisite: MUSIC 324 or equivalent.
This course is a continuation of Elementary Piano IV (MUSIC 324), offering essential keyboard facility designed for the piano major wishing to transfer to a major university or the amateur pianist seeking to play for individual enjoyment. Intermediate Piano covers an intense study in Modulating Chord Progressions, Greek Modes, Sixth Chords, Score Reading, Clef Transpositions, Improvisational Styles and intermediate to advanced piano literature.

MUSIC 361 Commercial Piano Techniques Workshop (2) UC/CSU
The student shall learn chords and chord progressions used in jazz and current popular music styles as applied to the keyboard. If the prerequisite is not met, enrollment is subject to audition.

MUSIC 385 Directed Studies (3) CSU
This course allows students to pursue directed study in Music on a contract basis under the direction of a supervising instructor.

MUSIC 411 Elementary Voice I (2) UC/CSU
This course is an introduction to the proper use of the voice through breath control and vocal placement, and includes posture, tone quality, diction, range, and stage presence. Repertoire includes simple art songs, folk songs and spirituals.

MUSIC 412 Elementary Voice II (2) UC/CSU
Recommended: MUSIC 411
An extension of principles introduced in Music 411 and includes interpretive qualities. Repertoire: an introduction to Italian art songs and simple Broadway songs.

MUSIC 413 Elementary Voice III (2) UC/CSU
Recommended: MUSIC 411 and 412 or equivalent.
All aspects of solo singing are stressed, especially English, Italian, and German diction. Repertoire includes art songs in the original language and less vocally demanding arias from opera and oratorio.

MUSIC 414 Elementary Voice IV (2) UC/CSU
Prerequisite: MUSIC 413 or equivalent.
This course is a continuation of the principles and concepts presented in MUSIC 413. An introduction to French art song and simple opera arias, the development of the student’s ability to analyze and interpret the song repertoire are stressed.

MUSIC 453 Music Theatre Repertoire for Singers (1) UC/CSU
This course presents a continued concentration of general basic fundamentals of singing dealing with vocal techniques as utilized in musical theater. Additional instruction will include basic movement and acting techniques utilizing musical theater song literature.
interpretation. Enrollment is subject to audition. Bring the music of a prepared song to the first class meeting.

MUSIC 501 College Choir (1) UC/CSU (RPT)
Open to all students by audition.
This course consists of study and performance of selected choral literature for mixed voices, both accompanied and a cappella. The emphasis is placed on the development of reading skills, basic voice techniques and interpreting the score.

MUSIC 561 Chamber Chorale (1) UC/CSU (RPT)
This course is designed for the intermediate choral singer. The students analyze, rehearse and perform choral music suited to a small group of singers, with and without accompaniment. Choral literature from the Renaissance through the 21st century is explored. Emphasis is on increased skill in reading music and sight singing, score interpretation, vocal technique, diction, ear training, and preparation for public performances. Confirmation of enrollment is subject to audition.

MUSIC 755 Brass Ensemble (1) UC/CSU (RPT)
This course involves preparation for performances of ensemble repertoire. It provides for the development of ensemble technical and artistic abilities through experience with a wide range of ensemble literature.

MUSIC 775 Jazz Ensemble (1) UC/CSU (RPT)
Open to all instrumentalists by audition.
This course provides instrumentalists and vocalists with the opportunity to rehearse and perform music of the past in the “big band” tradition, as well as contemporary compositions written for this ensemble.

MUSIC 781 Studio Jazz Band (1) UC/CSU (RPT)
The student prepares, rehearses and performs selected musical works for jazz band, focusing on rhythm, intonation, articulation, expression, blend and balance, following the conductor, improvisation of solos, and professional standards of conduct. Confirmation of enrollment is subject to audition.

NURSING

(Also see Allied Health, and Health Occupations.)

NURSING 399A Certified Nurse Assistant (5)
Recommended: ENGLISH 28.
This course will provide students with an introduction to the health care field, working with residents/patients in the long term care facility and the acute care setting. Emphasis will be given to safety principles, infection control, methods for providing physical care, and emotional and social support. Upon successful completion of this course, students will be eligible to take the American Red Cross Nurse Assistant Certification Exam.

NURSING 399B Certified Home Health Aide (2)
Prerequisite: Successful completion of NURSING 399A, or State of California Certification from California Department of Health.
This course focuses on understanding the regulatory guidelines pertaining to the Home Health Aide scope of practice; basic knowledge of the disease and to recognized signs and symptoms of the disease; the concepts of provision of care in home setting and a sound knowledge base from which the Home Health Aide can be an important partner of other healthcare providers, for the patient to achieve the highest level of physical function and go back to prior level of care.

OCEANOGRAPHY

(OCEANO)

(Also see Earth Science, Environmental Science, and Geography.)

OCEANO 001 Introduction to Oceanography (3) UC/CSU
Recommended: ENGLISH 028 and MATH 112
This course offers introductory study of the ocean floor, chemical & physical properties of ocean water, currents, tides, waves and marine resources.

PARALEGAL STUDIES

(PALEGAL)

PALEGAL 004 Legal Internship (3) CSU
Prerequisite: Paralegal 10 and English 101.
Directed field work in selected private law firms or public institutions of legal assisting are assigned to individual students. An effort is made to rotate office assignments.

PALEGAL 010 Introduction to Law and Legal Profession (3) CSU
An introductory course in formalizing the career of the legal assistant, an introduction to law, social forces and the law, comparison of the role of the legal assistant and the lawyer, and an introduction to legal terminology and bibliography, including research problems.

PALEGAL 011 Introduction to Civil Litigation (3) CSU
Prerequisite: PALEGAL 010 and ENGLISH 101.
This course is a continuation of PALEGAL 010 with a study of the composition, location and jurisdiction of all courts, a study of document production and administration within the judicial structure, a detailed examination of civil and criminal litigation, and an introduction to legal drafting and writing.
