

# EXPLORE ENGINEERING

West's Computer Science / Information Technology Division  
is launching an ELECTRICAL ENGINEERING program in Spring 2019.

**BE READY!**

**THIS FALL 2018, explore the discipline  
of Engineering and the many career possibilities.**

CLASS BEGINS AUGUST 27, 2018

**ENG GEN 101 – W01 Introduction to Science, Engineering & Technology**

This course is UC / CSU transferrable and has no prerequisites

27231 TuTh 9:35 – 10:05am      LEC    2 Units

**AND**

27232 TuTh 10:05 – 10:55am      LAB    2 Units

This course explores the branches of engineering and engineering technologies, the functions of an engineer and a technologist, and the industries in which they work. Explains the educational pathways and effective strategies for students to reach their full academic and career potentials, by thorough understanding of academia and academic success strategies. Presents an introduction to the methods and tools of engineering problem solving and design including the interface with society, professional and engineering ethics, and lifelong learning. Develops communication skills pertinent to the engineering and engineering technologies professions, through hands-on project(s) and teamwork in diverse environments.

The new Engineering Program will be discussed at  
**West's Open House on Saturday, August 18.**
