Course Description: This course surveys the major topics of biological anthropology. The primary goal of this course is to present how modern humans evolved. To accomplish this objective, it is necessary to (1) know how the evolutionary process works in general; (2) assess the evolutionary forces shaping the behavior and morphology of our closest living relatives, the monkeys and apes; (3) understand what the fossil record is and how it was created; and (4) consider fossil evidence that documents the evolutionary history of our own lineage, the hominids. These processes provide the key to understanding why humans are the way we are today.

Student Learning Outcomes: This course will help students achieve the following institutional Student Learning Outcomes:

Critical Thinking: Analyze problems by differentiating fact from opinions, using evidence, and using sound reasoning to specify multiple solutions and their consequences. Students will apply critical thinking to investigate and interpret the influences of heredity and environment upon human beings.

Cultural Diversity: Respectfully engage with other cultures in an effort to understand them. Students will participate in activities designed to elicit discussion and understanding of the biological variation among *Homo sapiens*.

Course-level SLO:

SLO 1: Explain how hereditary traits are transferred between generations and conclude how this relates to evolution by natural selection.

SLO 2: Recall and define anthropological terms and concepts that deal with the fossil record.

Reading: R. Jurmain, L. Kilgore, W. Trevathan, & E. Bartelink (2017) *Essentials of Physical Anthropology*, 10th edition. Cengage. (ISBN 978-1-305-63381-0)

This is the required text and edition for this course. References made in this course to chapters and page numbers are referring to those in this text.

Modules: Modules, accessed from the left hand menu of the class site, are the "classroom" or lecture component of this course. Module material is designed to add to course readings. While reading the modules, have your textbook on hand.

All sections of each module are required. To keep up with course work, have the module done by the end of the week its listed on the Course Outline. Not having the module sections completed by the end of the week listed on the Course Outline is grounds for being excluded from the class for lack of participation.

Discussions: There are three categories of discussions available for student participation. All discussions can be accessed from the left hand menu in our class site. Click on "Discussion and Private Message" to see two 'Main' discussion categories "Required Class Discussions," "Questions & Messages," & "Extra

Credit" and one 'Other' category, "Student Lounge."

A. "Required Discussion Essays" is the forum where you will post two essays per topic.

Discussion	Topic	Points	Essay 1 Due	Essay 2 Due
D1	Introduction*	10	June 14	June 16
D2	Speciation	30	June 28	June 30
D3	Origins of Hs	30	July 12	July 14

* If you do not post an introduction (D1) by the due date, you will be dropped from the class. Missing other Required Class Discussions may result in being dropped for lack of participation.

See Discussion Essay Requirements in the first module and in the Required Discussion Essay forum. Points will be deducted for requirements not met.

B. "Questions and Messages" is where the instructor has posted some general course information and is the forum for when you have a question or comment on material from the readings and/or the modules. Use this forum to ask all class questions (with the exception of individual grade or other private matters, in which case use Private Message). This will allow others to benefit from the question as well as contribute responses.

C. "Extra Credit" is where within the topic EC that you will post a maximum of two posting for a possible 10 extra credit points. Fully address the prompt and follow all directions. If you choose not to do this, it will not impact your grade. This is the only extra credit that will be offered. The essay for extra credit will not be accepted after July 7.

D. "Student Lounge" provides you with a forum to "talk" amongst yourselves about course material. These are informal discussions between students about class topics.

The instructor will remove inappropriate topics from this and other forums. 'Inappropriate' is defined by the instructor.

Tests: Tests may cover material presented in the readings - textbook and modules. All tests are objective and each question is worth a possible 1 point. Be advised that you need to set aside time to take a test after you have finished the readings, modules and discussions for each section. Tests are not timed. You can stop taking a test and continue it at a later time but be aware that if you submit/Finish a test, even accidentally, there is no going back to make changes or to redo a test.
