

CSI:

CONTINUOUS & SUSTAINED IMPROVEMENT

SLO Course Assessment and Revision Cycle

The SLO Cycle includes assessing **all** SLOs in **all** courses offered within 4 years (Fall 2013-Spring 2017).

Assessment occurs in a 4-semester cycle described below.

The SLO course assessment and revision process is an ongoing cycle that continuously improves course content and delivery methodologies and is a part of the larger accreditation cycle that the college is engaged in. Each phase is one semester.

PHASE 1: Course is administered and assessed.

PHASE 2: Course assessment results are discussed and changes are decided upon. *For example, changes in pedagogy, curriculum, or changing/adding SLOs themselves.*

PHASE 3: Course changes are implemented and assessed.

PHASE 4: Reassessment results are discussed to close the loop. *For example, do results meet the criterion level?*
If changes are needed, return to PHASE 3.

PHASES 4 & 3 continue until course SLOs results are satisfactorily met.

While a logical order of the assessment cycle would begin the process during the fall with implementation occurring the following fall, the four-semester cycle has flexibility. For example, some courses are only offered in the spring, for those courses, the cycle would begin then with implementation occurring the following spring.

This sustained improvement process ensures that course content, delivery mechanisms and exams yield the most up-to-date information and achieve the greatest degree of student success.
