

Pool Rules

In order to provide a safe, quality experience.

1. **NO RUNNING, NO JUMPING, NO DIVING!!!**
2. **Only registered participants** allowed in the pool and surrounding area. All others (including those in a class other than the one being taught at the time) are required to wait outside or in the adjoining classroom, if available.
3. **No child allowed in the pool** without an attendant parent or guardian.
4. Participants must **leave the pool area before the next scheduled class begins.**
5. **No changing** in the pool area. Participants must change in the locker rooms and/or the bathrooms located outside the pool area.
6. **Swim diapers required for babies and toddlers.** Goggles are recommended (but not required) for all children. Quality goggles help keep the swimming experience positive for children who do not like their eyes to sting from the chemicals in the water.
7. **No personal flotation devices** allowed. Some can be detrimental to the learning experience. Any equipment needed for use during class will be provided.
8. **Always enter the pool at the southeastern corner** via the ramp or the steps.
9. **OBEY ALL INSTRUCTIONS GIVEN BY AN INSTRUCTOR OR LIFEGUARD.** Their instructions take precedence over any rule.

Parents are responsible for ensuring that any adult chaperone/parent participant who comes to future classes in their place fully understands these requirements.

Failure to follow these rules may result in being removed from class without refund.

We appreciate and thank you for your cooperation.
