4. Approve Mobile Application Development Certificate of Achievement –
   **Action**
   A. Patil spoke on this - due to the tremendous market in mobile applications this certificate of achievement is being developed for students.

   Vetting process - put through the District first to make sure none of the other colleges under the District are offering the course. This must be signed by regional deans first before sending to the District for the Board to approve. There is a regional challenge as Long Beach City College and Santa Monica College are offering this.

   **Motion to approve: Foster UNAM**

   Amendment to motion that includes language of the note: Foster There were no objections. **UNAM**

5. Reduce the number of signatures needed for COR approval on courses that have gone thru the full signature approval process within the previous 9 months. – **Action (Witucki) POSTPONED**

2. Non-Credit course presentation – withdrawn

3. Prerequisites and how to update them – postponed

4. C-ID update on conditional, expired and not approved course – A. Martinez
   A list of expired courses was passed around. These courses need to be updated and revised to meet the C-ID. J. Witucki has been working on these to update them. They have to go through the local approval process.

5. Accreditation Standard review – Aguiar
   A. Aguiar requested the Committee to please review and align E-64, E65, E-67, of Board rules for Board approval process. A. Aguiar will send to every member the Board Rules and Administrative Regulations that pertain to curriculum; transfer credit issue, graduation requirements and general education requirements. A. Foster reminded members to take time to read E-65 and E-67. A. Aguiar will also send the ILA questions.

6. College Catalog – Aguiar
   A. Aguiar reported that Academic Affairs just had an audit of the college catalog. Discussion followed regarding the difference between not offering a class and removing, archiving and deleting from the catalog. A class was offered but removed from the catalog because the course update was in place but not yet approved. A course was removed from the catalog even though the class was updated in ECD. It is better to have the courses in the catalog than not have them in the catalog. The faculty initiates changes to department curriculum with their chairs who then submits approved changes using ECD.

   Winter 2016 – Committee would like training workshops in curriculum.

7. Distance Learning Strategy forms
   The following courses have not submitted the required Distance Learning Strategies forms:
   - Cinema 107
   - Economics 002
   - English 185
   - Family and Consumer Studies 021

   Deadline to submit distance learning strategy forms is the end of November 2015.

8. New Program Handbook will be posted to the Curriculum web site.
   Note: Handbook was emailed on 10/13/15. This is just an FYI.

9. Additional Curriculum meetings have been requested. Are members available on Tuesday, 12/1/15, at 1pm for a brief meeting to approve courses updated, created, archived or reinstated? Yes, please schedule
10. Spring semester begins 2/8/16. Academic Senate meets on 2/9 and 2/23 which only leaves 2/16/15, the Tuesday after a 4 day weekend, for a possible meeting. SSB 414 is not available. If the committee would like to meet in February I will find another space. Currently our first Spring meeting is 3/15/16. **Discuss at 12/1/15 meeting**

11. **DCC Report – postponed**

12. **Hospitality and Travel Certificates – Coleman**

   J. Coleman reported that he is adding in a few more substitutes. Is this creating problems for students? Courses for Hospitality were listed in Travel discipline – approving substitutes case by case. Some courses were not up to date in ECD and have to be archived. There is a problem with archiving a course; you cannot just reinstate it as once you archive a course it will be archived at State Chancellor’s Office. You have to reinitiate the entire process. This will be noticed for action so that this Committee can correct the problems.

   There was a discussion about the different ways for students to accelerate their math courses for transfer by taking statistics courses at UCLA. This is so they don’t have to take two years of basic math at West. Can West offer something similar for students?

   This is one of the recommended pathways for the Chancellor to consider.

**V. ADJOURNMENT**

The meeting adjourned at 2:59 p.m.
