West Los Angeles College’s Distance Learning Program offers anytime, anywhere, education!

Through our comprehensive Distance Learning Program, earn college credit in a variety of courses that provide flexibility in scheduling and the ability to study when it is convenient for you.

Distance learning classes feature the same content and offer the same transferability as on-campus classes. For transferability information, see the Online Classes section of the current WLAC Schedule of Classes or visit http://www.wlac.edu/online.

Online courses are fully interactive, and most do not require any campus visits. Students have the flexibility of accessing course work 24 hours a day, 7 days a week from any updated computer with Internet access. Students are also welcome to access online courses using the WLAC Library Instructional Research Lab (LIRL) on the 2nd floor of the HLRC.

A few online classes do have an on-campus requirement; see the current Schedule of Classes or the online classes’ website at http://www.wlac.edu/online for specific course requirements.
